

PRINCE GEORGE'S COUNTY IN ALLIANCE WITH THE CLEAN WATER PARTNERSHIP (CWP) HAS BEEN WORKING ON THE PLANNING AND DESIGN OF A STREAM RESTORATION PROJECT NEAR NORTHBROOK DRIVE AND HILLMEADE ROAD . THE CONSTRUCTION FOR THIS PROJECT IS SCHEDULED TO START IN SPRING 2020.

PROJECT DETAILS:

This is a restoration project to improve the condition of the effected stream, Horsepen Branch. Stream restoration is a best management practice (BMP) that stabilizes eroded streams, restores natural aquatic ecosystems and improves water quality. The project includes temporary access to the stream, installation of erosion and sediment measures, in-stream structures, and grading of the stream channel and banks. After construction is complete, all disturbed areas will be returned to stable conditions.
