

# CLEAN WATER PARTNERSHIP GLENN DALE SPLASH PARK

## CONSTRUCTION INFORMATION

### PROJECT ADDRESS:

Glenn Dale Splash Park  
11902 Glenn Dale Blvd, Glenn Dale, MD 20769

### CONTRACTOR: SMC

**START DATE:** November 2020

**ANTICIPATED COMPLETION DATE:** January 2021

### CONSTRUCTION HOURS (TYPICAL):

Monday- Friday 7:00am-5:00pm  
Saturday 9:00am-5:00pm  
(as needed to compensate for weather related delays)

### SITE ACCESS:

The construction team will access the project site from Glenn Dale Blvd and will be using the parking lot adjacent to the pond for construction crew parking.

### PROJECT DETAILS:

The Glenn Dale Splash Park stormwater retrofit project will include draining the existing pond and excavating the pond bottom to a uniform level. This process will increase the wet storage capacity of the pond. The construction project also includes the installation of a forebay and gabion wall designed to capture debris and sediment from two inflow channels that drain into the pond. Join us for a discussion and review of this upcoming project and discover how a stormwater retrofit project can benefit your community and the environment.
